To inspire every child to recognise their full potential, believe they can make a difference and respect themselves, others and the world in which they live.

LEARNING JOURNEY

We have been focusing on science in our learning journey work for the last few weeks. We have learnt how to categorise different dinosaurs based on their physical features through the use of classification keys.

We are now learning how to use key words such as producer, consumer, predator and prey in understanding and making food chains or webs.

MATHS

Measuring has been at the heart of our work. We have been practising how to measure and convert units of measurement. Prior to actually measuring, we learnt how to estimate and compared our estimations to the actual length in cm of various objects.

REMINDERS

Monday 15th and Friday 19th December we will finish the school day at 11:30am

Please remember to collect empty cereal boxes and food cartons for our design and make a dinosaur project!

LITERACY

We have been looking at letter writing this week. We have reflected upon what is the purpose of a letter and top tips for writing a good letter. We have imagined finding a dinosaur fossil and thought about what we would write in a letter to a famous paleontologist Dr. Richard Owen.

What questions would you ask?

How long ago did the dinosaur live?

What was its diet?

WebsIte Of The Week

www.sheppardsoftware.com/content/animals/kidscorner/games/foodchaingame.swf

I have really improved my communication skills and confidence to ask questions about my learning.

I have shown resilience in converting units of measurement.

I have shown a really hard working attitude in maths and literacy.

PERSONAL GOALS

Throughout November & December our third iCAN personal goal is COOPERATION.

We will all be encouraging members of iCAN to be more cooperative by:

• Sharing ideas in teams & working together in groups
• Using cooperative learning structures to work together as a class or team
• Listening to our friends & helping others
• Getting the best from teamwork
• Appreciating the ideas and work of others

COOPERATION

We all did our best and practised hard for our class assembly.
