LEARNING JOURNEY

We had a lot of fun before the holidays preparing for our exit point of our last unit ‘We Are What We Eat’. We were really happy to see so many of you at our restaurant enjoying the yummy snacks that the learners in Milepost 1 had prepared themselves.

Now we are learning all about ‘Media Magic’ and started the week with a movie premiere where we dressed up, ate popcorn, and heard all about the exciting tasks that lay ahead. MP1 will be making movies for International Studios and we have already started this week by working as Foley artists and creating sound effects for different scenes.

MATHS

In maths we have been busy consolidating our learning of 3-D shapes. We are really good at recognising many 3-D shapes and identified lots around the school. We have also been identifying the properties of 3-D shapes. This was tricky at first but after lots of practise we could locate all the properties of 3-D shapes! Our new learning this week has been symmetry. We have been finding lines of symmetry in many different shapes and making symmetrical pictures!

LITERACY

Literacy has been so exciting this week and we have been working really hard! A film producer asked us to help him with many film related tasks! The first challenge was to write a film review! We achieved this with great success! Next week we are going to learn about traditional tales and turn them into a movie!

Optional maths sheets will now be available outside Milepost 1 classrooms on Fridays.

Our iCAN family kite flying picnic is on Saturday 17th January. Please check your emails for more details.

PERSONAL GOALS

Throughout January our fourth iCAN personal goal is ENQUIRY.

We will all be encouraging members of iCAN to be more enquiring by:

- Researching new ideas
- Finding answers to questions they have
- Finding out new things and sharing them with their classmates
- Asking questions if there is something they don’t understand
- Finding out more about their learning at home
- Exploring our classrooms

ENQUIRY

I have been focusing really well during learning time. I also created a fantastic water colour picture in art!

I have been so adaptable when settling in to my new school.

I showed very good cooperation skills while I was working with my team.

I am new in 2A and I settled in very quickly!
