LEARNING JOURNEY

This week we self assessed our learning in our unit, ‘Footprints from the Past’
Thank you for coming to our Dinosaur Museums for our exit point. We hope we were able to teach you lots about dinosaurs through subjects like History, Geography and Science.
Our next unit is called ‘Inventions that changed the world’. This week we will spend time saying goodbye to our home base teams and getting to know our new teams. Then we will have a brand new entry point on Monday. Exciting!!

MATHS

During Maths the we have been learning about decimals and partitioning numbers up to a hundredth place. As well as this we have been learning to do some basic division using our knowledge of the timetables to help us arrive at an answer. In addition (no pun intended) we have been learning how to subtract mentally.

PERSONAL GOALS

Throughout January our fourth iCAN personal goal is ENQUIRY.

We will all be encouraging members of iCAN to be more enquiring by:
• Researching new ideas
• Finding answers to questions they have
• Finding out new things and sharing them with their classmates
• Asking questions if there is something they don’t understand
• Finding out more about their learning at home
• Exploring our classrooms

LITERACY

We are continuing our learning about play scripts and this week will be making our very own movie scenes using dialogue we scripted ourselves.
Let’s hope our stage directions are clear and we have used effective adverbs and verbs. Once we have finished, a few of the movies will be uploaded to our MP2 website.

REMINDERS

Come and support our iCAN Swim Team at the Olympic pool on Saturday morning 8-11am.

Our second Family Learning Day is next Tuesday 3rd February. Sign up at your child’s classroom.

Sports Day is on the 6th February.
