To inspire every child to recognise their full potential, believe they can make a difference and respect themselves, others and the world in which they live.

LEARNING JOURNEY

Our new task for our Learning Journey was to experience New York City. We went to a coffee shop and Times Square. We saw New York from the top of the Empire State Building and saw the New York skyline at night. We learned and experienced all these new things to make a documentary about New York.

This week we built models of New York city in our teams. The models showed the geographical features we learned about: skyscrapers, road signs, traffic lights, cars and cabs, the Hudson River, Brooklyn Bridge, Liberty Statue etc etc!

MATHS

We have been learning to count in fives and in tens! Last week we used a number square to help us add multiples of ten to two digit numbers. We then used this skill to work out word problems that involve adding multiples of ten. This week we learned to count in fives and to solve word and picture problems by counting up in fives.

LITERACY

Last week we worked together to read an information text about New York. We learned all kinds of things about New York City from the population to the climate and the most widely spoken language. We used this information to ask and answer questions about the city. We focused on grammar and sentence structure when writing our questions and answers in full sentences.

REMINDERS

It’s Book Week next week!

On Thursday 12th March we have our Book Week Parade. The children can dress up as their favourite book character!

PERSONAL GOALS

Throughout March our sixth iCAN personal goal is RESILIENCE.

We will all be encouraging members of iCAN to be more resilient by:

• Keep trying
• Recognising obstacles and finding ways to overcome them
• Thinking positively
• Using trial and error to solve problems without giving up
• Thinking of different ways to help their learning
• Asking for help if they get stuck

RESILIENCE

I did a great job of asking questions about New York!

I have been trying really hard at all my learning this week.

I have been working really hard to ask and answer questions.

I have been working cooperatively to find out about New York City.
