To inspire every child to recognise their full potential, believe they can make a difference and respect themselves, others and the world in which they live.

LEARNING JOURNEY

We enjoyed learning about the history of flight. We researched the story of the hot air balloon in groups, the first glider, a Zeppelin airship and the jet plane. We used our presentation skills to share our learning with the rest of our class, by making short videos to explain our group’s invention. Did you know that the Muslim world has generated some important inventions? We thought about which ones were the most important and why. Next week we will begin our technology unit and start to research toys with a moving part, in preparation to design and make our own.

MATHS

We have been learning to convert money from cents to dollars and vice-versa through multiplication and division of 100. Multiplication will continue, with the learning goal to multiply 2 digit numbers by 2 digit numbers using new strategies. Symmetry in shapes will follow multiplication.

PERSONAL GOALS

Throughout March our sixth iCAN personal goal is RESILIENCE. We will all be encouraging members of iCAN to be more resilient by:

- Keep trying
- Recognising obstacles and finding ways to overcome them
- Thinking positively
- Using trial and error to solve problems without giving up
- Thinking of different ways to help their learning
- Asking for help if they get stuck

LITERACY

We have finished reading the story ‘The Iron Man’. We are now using this story as a framework to write our own story based on a strange creature made out of a different material, for example; ‘The Rock Man’ or ‘The Golden Girl’. We are practising the skill of organising our story into a clear structure.

REMINDERS

3N class assembly has been moved to Wednesday March 18th.

Book Week begins Monday 9th March.
Bring in an old book to swap for a new one!
Dress up as your favourite book character on Thursday 12th March.
Bedtime stories 5.30pm—6.30pm, Wednesday 11th March.

WEBSITE OF THE WEEK

www.teachingtables.co.uk

I have shown outstanding ability in multiplying by 100.
I've showed quick thinking skills in mental maths to solve money problems.
I always show a positive attitude to my learning and set an example to others.
I have progressed really well with learning English and show great resilience.
