The Year 3 Newsletter!

Literacy

This week we looked at persuasive texts and the language used. We had a look at some different adverts and thought about what features made us want to buy the product in the advert. We evaluated advertising leaflets. Next week we will design our own advertising posters for our maths stalls.

Numeracy

This week we looked at number sequences and considered strategies we can use to find out any unknown numbers, before creating our own number sequences. Next week we will be revising multiplication and division facts and looking at the relationship between multiplication and division.

Notices

Sleepover for Year 3 - Thursday 28th Jan. Please bring a pillow and blanket/sleeping bag, a favourite toy (no electronic toys), toothbrush, toothpaste and clothes to sleep in and for the next day. **Please bring in any plastic bottles with lids.** We also need cardboard rolls from kitchen roll and Pringles tubes; it's good to recycle!

3R Star of the Week

Kim Vyl
For being kind and helpful
at snack time.

3J Star of the Week

Veronica!
For working so well on
some extra maths
skills and for asking
for more work! Well
Done!

Maths: <http://www.mathplayground.com/>

Science

This week we studied the function of roots, and used a microscope to observe roots from a variety of plants. We also observed cress and mustard seeds which have germinated. Next week we will look at the function of the stem in plants.

Learning Journey

This week we looked at causes of deforestation and did some of our own research. We also drew a picture of a rainforest using Paint and labelled the different layers by inserting text boxes into our pictures. Next week 3J will make rain sticks for our stall for maths week.
