

29.01.10 The Year 4 Newsletter

LITERACY

Punctuation has been the focus of this week; we are now all semi-colon experts. We can also: use colons correctly, use exclamation marks with skill, and also use brackets (some of the time). How have they done? "Very well indeed!" exclaimed their teachers. Next week-vocabulary involved in measuring.

MATHEMATICS

We have practised using all four operations to help us to solve word problems. Next week we will be undertaking maths activities with a focus on measuring. We will also be making maths games to sell on our stall on Wednesday.

NOTICES

- Please ensure that your child returns their permission slip to attend iCAN PLAY by Monday 1st.
- We look forwards to seeing you at our stall on Wednesday- which class will raise the most money?

4D Star of the Week

Ryuichi: For his very sensitive and mature role play and for pushing himself with difficult challenges in mathematics.

4L Star of the Week

Monique: For her wonderful insight into characters in stories from another culture.

iSPACE LINKS

In light of Maths Week, here are some shape, space, and measure activities to keep you busy:

MATHS WEEK

We will be undertaking lots of fun activities this week focused around measuring. We will also be exploring the concepts of profit and loss by buying resources to turn into products that we can market and sell. We will also be exploring mean averages and making a survey of the heights of children in different classes.

LEARNING JOURNEY

We have looked at different sources of evidence this week and have found that not all sources may agree with each other. We have also explored the reasons why a source may have bias. We will now be learning about which religions were represented under the Khmer Empire.
