# The Year 5 Newsletter!

**Literacy**

We have continued looking at stories from other cultures this week. We continued a story about a boy from India, using paragraphs to organise our ideas. We also read a Jamaican story and explored the feelings of the main character. Next week, we will write our own stories set in another country using the ideas we've read so far!

**Maths Week - Chocotastic**

During Maths Week, one of our Measure Up activities was to follow some chocolately recipes and produce incredible foods to sell on the Year 5 stall. We worked together to make fudge, truffles and crispy crackles. They were so delicious that they were sold out in less than thirty

**Notices**

- Thank you to all the parents who came and bought the delicious goodies on sale at iCAN this week; we hope you enjoyed them.
- Thank you, also, for buying your children's amazing Maths Week artwork. All the money has been given to the orphanage that Miss Rachael works with.

## Star of the Week 50

**Nat, your box making skills this week were absolutely astonishing. I couldn't believe just how quickly you could turn a piece of paper into a proper box. Incredible! Well done.**

## Star of the Week 5S

**Phealail Your design for our Maths Week artwork was tremendous and really beautiful too. You thought really hard about the colours and shapes you wanted to use. Well done!**

**Maths Week - Artwork**

Another Maths Week task was to use our measuring skills to create a painting out of a number of straight lines that crissed and crossed forming lots of weird and wonderful shapes. We then painted these shapes an assortment of different colours and sold them

**Maths Week - Healthy Park**

Our final project, during Maths Week, was to design, measure and create our very own 3D park. The park had to be made out of a square and rectangle buildings, which needed to promote a healthy lifestyle. We had juice bars, gyms, botanical gardens, swimming pools and
