

The Year 6 Newsletter!

Literacy

We have been investigating the features of a biography. We have been using these to plan and write a biography of our classmates. The features we have focussed on include the fact they are written in 3rd person and give only the most interesting details, facts, stories and achievements of the persons life.

Numeracy

We have been revising the measurement we have covered so far including angles, area and perimeter as well as revisiting converting measurements. We have discussed what is meant by the term, capacity and how this is different from mass. We are now investigating data and how to interpret and present different graphs and frequency charts!

Star of the Week!

Jak! You have made a fabulous start back to the teaching block with your presentation!

Notices

If your child/ren has/have grown out of their clothes but they are in good condition we would really appreciate it if you could bring the clothes to school so that we can donate them to an NGO that we have links with in Banteay Meanchey in the NW of the country. They are supporting 60 children from very poor families from 6 years old to go to school and would like to be able to give each child a new outfit to wear at Khmer New Year. The clothes will be collected in the first week of April. Thank you for your help.'

P.S.H.C.E.

This teaching block will see us begin to discuss in more detail the topic, 'Good to be me'. The children will explore how we are all different, how their bodies are changing and the reasons for these. Please see me if you have any concerns ☺

Learning Journey

We are exploring the mountains of the world, discovering where the worlds mountainous regions are, where the worlds highest mountains are located and what the environment is like on a mountain.

Family Learning Day will take place on Monday 8/3 during book week. Please sign up to be involved!
