

Learning Highlights

- In English we have been preparing for our first writing assessment task.
- In Humanities students worked out which countries achieved the best ratio of Olympic Medals per population for the recent Winter Olympics.
- In PE students looked at how we can transfer learnt skills into different sports.
- In Sport Science students started a Food Diary. Next week they will be doing an exercise diary.
- In Art and Design we have almost completed our sensational Circle Project painting which will be on display very soon. We have also begun our Graphic Design unit in DT, making magazine style covers with Publisher.
- In Science we have been conducting Chromatography investigations.

UPCOMING EVENTS

SWIM MEET

This will take place at NISC on Saturday 20/3 from 8am to approx 12pm.

We would love to see you there to support the team!

FAMILY LEARNING DAY

Monday 8th March. Please make sure that you have signed up and arrive on time ready to do some fun learning!!

BOOK WEEK! LET'S GET READING!!

Clothing Donation

If your children have grown out of their clothes but they are in good condition please bring them to school so we can donate them to an NGO that we have links with in Banteay Meanchey. They are supporting 60 children from very poor families from 6 years old. We would love to be able to give each child a new outfit to wear at Khmer New Year. The clothes will be collected in the first week of April. Thank you for your help.

Curriculum Focus

ICT

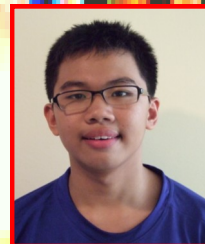

Mr Den

Key Stage 3 Amazing Awards

Congratulations to
AN & JESS

On being presented with an
Olympic Spirit Award

For continued excellence in PE & Sport
and showing the Olympic Spirit of
Sportsmanship and a desire to be
great!

ICT is integrated into many subjects throughout the school week. For example, students use computer technology in English, Geography, History, Art, Design and Technology and even sports, PSHCE and Music.

Students have access to the ICT lab as well as a class set of netbooks that we use in the classroom. These have wireless access.

ICT is also taught on Monday afternoons for one hour by Mr Den. In this lesson specific skills are taught so students can use various programs more efficiently.

Recently, the focus is on keyboard shortcuts and Excel spreadsheets. Later areas of focus will be surfing the internet safely.
