

This Week ...

- The children have loved our new topic on Wild Animals.
- They have been busy at the creative corner outside, using different textures to make large scale animals and trees.
- We have been developing our counting skills and learning the Little Monkey Song.
- The children had great fun exploring the jelly and finding the different jungle animals!
- We loved making banana milkshake this week.

At Home...

Talk about the different wild animals. Can your child name some and make the matching noise?

Reminders...

Please ensure you arrive by 8.15. Late children and parents can be unsettling to new children that are becoming familiar with our daily routines. Thank you

Next Week...

- We will learn all about elephants.
- The children will learn to match movements to music and imitate the different animals we have learned about so far.
- They will continue to develop their gross motor skills and practice jumping on the trampoline and box.
- Children will take part in activities to help tune into the different sounds around us.
