

### This Week ...

We have developed our mark-making skills by drawing on a large scale with chalks. The children are starting to recognise some basic shapes, and loved developing their throwing skills outside with the animal beanbags and shape hoops. We have enjoyed making different sounds using the musical instruments. The children are starting to sort objects into big and small toys. It has been lovely to see friendships forming and children are developing their sharing skills.

### At Home...

Practise singing your child's favourite songs. Go to [www.learnenglishkids.com](http://www.learnenglishkids.com) or [britishcouncil.org/en/songs](http://britishcouncil.org/en/songs) to watch some of iCAN PLAY's favourite songs.

### Next week...

Have a fantastic week off for Pchum Ben! After the holiday we will start our new topic all about transport. We will make our own large road map together and play with the cars on it. In the creative area we will use the vehicles to make patterns with the wheels. The children will learn about the different forms of transport and will learn to distinguish between the different sounds that they make.

### Reminders...

Please ensure that you pick your child up at 11.15am each morning. It is important to be prompt as this will help to support your child with settling into the iCAN PLAY routine.

Ms. Maggie,  
Ms. Lily and the  
iCAN PLAY team
